- **Multi-Sector Reach:** Proven success serving corporate, educational, and government clients.

CERTIFICATIONS

COMPANY OVERVIEW

OST Network (a DBA of Oh She's Tech LLC) is a women-owned professional services firm specializing in training, organizational support, and strategic consulting. We empower government and commercial clients through customized solutions in professional development, administrative management, and workforce transformation.

Founded and led by a principal with an active Top Secret (TS) security clearance, OST Network is uniquely positioned to support projects involving sensitive or classified environments. This level of trusted access enhances our ability to engage with secure government operations and deliver services with the highest standards of confidentiality and compliance.

Our solutions are grounded in operational excellence, workforce empowerment, and a commitment to delivering measurable results.

OUR SERVICES

Program and Project Administration: Driving successful program and project outcomes through expert scheduling, milestone tracking, resource management, and alignment with strategic objectives to ensure timely and efficient delivery.

Executive Support: Providing proactive, high-caliber executive assistance, including streamlined calendar management, polished correspondence handling, and seamless meeting coordination to enhance leadership effectiveness.

Corporate Training for Tech and Cybersecurity: Specialized programs that build leadership, cybersecurity awareness, and workforce readiness in tech-driven environments, supported by a formal training and certification process.

Professional Training and Development: Designing and delivering customized training programs that enhance workforce capability, leadership effectiveness, and organizational performance. Focus areas include digital literacy, management development, workplace readiness, and diversity in tech—empowering teams to adapt, lead, and excel in dynamic environments.

Cybersecurity Support and Awareness: Strengthening organizational security through cybersecurity training, risk assessments, and the implementation of best practices to protect sensitive information and critical systems. Supporting compliance with cybersecurity frameworks like NIST, CMMC, and ISO standards to safeguard operational integrity.

Human Resources Administration: Enabling talent acquisition and retention through efficient recruitment, onboarding, and engagement strategies, while ensuring compliance with HR policies and best practices.

Event Planning and Coordination: Designing and delivering impactful events, meetings, and conferences with precision, ensuring seamless execution and alignment with organizational branding and goals.

Customer Service and Communications: Elevating client and stakeholder engagement through clear, responsive communication, innovative issue resolution, and a focus on delivering exceptional experiences.
